I loved Comenius and I hope that more schools in Estonia take part of these kind of projects because it was really awesome experience! Knowing foreign people by travelling all around the world, sharing your habits and your traditions with the others, appreciating the luck to have been born in a first world country and consequentially respecting poor people by trying to help them is one of the best experiences I have never had. Nothing needs to be added. Cheers Alxel :) <3 To my mind Comenius-project gives a wonderful opportunity to use languages, get new friends, get to know new cultures, get more self-confidence and it also increases open-mindedness. For future projects I've got one suggestion. In the program could be more events and visits where foreign young people could get to know each other more easily. In addition, I'd like to say that in my opinion, travelling is always a great way to get in touch with other cultures, which is exactly what we need if we want to hope in a better world, without wars, conflicts and misunderstandings. I think that comenius project is one of the best experiences I've ever had, thank you for everything :)
